SEIZURES MEDICAL SOURCE STATEMENT

rom	:_					
e:	_		(Name of Patient)			
	_		(Social Security No.)		
		nswer the following questions con atment notes, laboratory and test res		nt's seizures.	Attach releve	an
	Fre	quency and length of contact:				
	Do	es your patient have seizures?		☐ Yes	□ No	
	Otl	ner diagnoses:				
	If y	our patient has seizures:				
	A.	What type of seizures does your pat	ient have?			
		☐ Convulsive (grand mal or psycho☐ Nonconvulsive (petit mal, psycho	,			
	В.	Is there loss of consciousness during	g seizure?	☐ Yes	□ No	
		If no, is there alternation of awarene	ess during seizure?	☐ Yes	□ No	
	C.	Does your patient always have a wa	rning of an impendir	ng seizure?] Yes □ N	О
		If yes, how long is it between the wa	arning and onset of the	he seizure? _	minutes	
		Can your patient always take safety	precautions when a	seizure is com	ning on?	
	D.	What is the average frequency of se	izures? per w	eekp	er month	
	E.	Do seizures occur at a particular tin	ne of the day?	☐ Yes	□ No	
		If yes, explain when seizures occur:				
	F.	Please provide a detailed description	n of a typical seizure	:		

G. Identify <i>symptoms or signs</i> associated with your patient's seizure disorder:
☐ Presence of aura ☐ Tongue bites or other injures ☐ Loss of sphincter control ☐ Loss of bladder control ☐ Other:
H. Identify postictal phenomena:
□ Confusion □ Muscle strain □ Exhaustion □ Paranoia □ Irritability □ Difficulties communicating □ Severe headaches □ Other:
How long after a seizure do these postictal phenomena last?
I. Does your patient typically need to rest after a seizure? ☐ Yes ☐ No
If yes, for approximately how long:
J. Describe the degree to which having a seizure interferes with your patient's daily activities following a seizure:
K. What sort of action must others take during and immediately after your patient's seizure?
☐ Put something soft under the head ☐ Remove glasses ☐ Clear the area of hard or sharp objects ☐ Loosen tight clothing ☐ After seizure, turn patient on side to allow saliva to drain from mouth ☐ Other:
Identify positive test results (e.g., EEG):
Can stress precipitate your patient's seizures? ☐ Yes ☐ No
If yes, to what degree can your patient tolerate work stress?
 ☐ Incapable of even "low stress" work ☐ Capable of low stress work ☐ Capable of high stress work
Can exertion precipitate your patient's seizures? ☐ Yes ☐ No
If yes, if your patient was placed in a competitive job,
A. Please indicate how long your patient can sit and stand/walk total in an 8-hour working day (with normal breaks):

4.

5.

6.

	Sit	Stand/walk	less than 2 about 2 hou about 4 hou at least 6 h	urs urs		
	this question "rarely" means 1% to 5 working day; ''frequently'' means 3				ns 6% to 33% of an	8
	B. How many pounds can yo	urpatientlifta	ınd carry in a	competitive wo	rk situation?	
	Less than 10 lbs. 10 lbs. 20 lbs. 50 lbs.	Never	Rarely	Occasionally	Frequently	
7.	Type of medication and respo	nse:				
3. 9 .	Is your patient compliant with Please identify any side effect	-		☐ Yes	□ No	
10.	☐ Dizziness ☐ Eye focusing prol ☐ Lethargy ☐ Other: If your patient's blood levels	of anticonvuls	☐ Lack of	nation disturban f alertness on have recently	y been at less th	ar
	therapeutic levels, please expl	ain wny there	nas been diff	iculty controlling	g blood levels.	
						_
11.	Does your patient currently ab	ouse alcohol or	street drugs	? □ Yes	□ No	
	A. If no, to the best of your kn street drugs? □ Ne	-		ime your patient	abused alcohol o	or
	B. If yes, if you were to assur would your patient continuquestionnaire?					
	Please explain:		· · · · · · · · · · · · · · · · · · ·			
12	Does your natient have any as	sociated menta	al problems?	□ Yes	П №	

	If yes, please check those that apply: □ Depression □ Short attention span □ Irritability □ Memory problems □ Social isolation □ Behavior extremes □ Poor self-esteem □ Other:
	In addition to time away from work for seizures and postictal phenomena, will your patient otherwise need to take unscheduled breaks during an 8-hour working day? □ Yes □ No
	If yes, 1) how <i>often</i> do you think this will happen?
	2) how <i>long</i> (on average) will your patient have to rest before returning to work?
	3) what are the reasons for such breaks?
14.	Are your patient's impairments likely to produce "good days" and "bad days"? \[\sum \text{Yes} \sum \sum \text{No} \]
	If yes, assuming your patient was attempting to work full time, please estimate, on the average, how many days per month your patient is likely to be absent from work as a result of the impairments or treatment:
	 □ Never □ About three days per month □ About four days per month □ About two days per month □ More than four days per month
	Please describe any other limitations (such as limitations in the ability to bend, stoop, limitations in using arms, hands, fingers, limited vision, difficulty hearing, need to avoid temperature extremes, wetness, humidity, noise, dust, fumes, gases or hazards, etc.) that would affect your patient's ability to work at a regular job on a sustained basis:
